Treatment protocol:

1. Remove eye and lip make-up with **Micellar Cleanse - Eye & Lip** on cotton pads.
2. Cleanse face with **Clear Cleanse** on dry skin. Wet hands and repeat cleansing routine. Remove thoroughly.
3. Carry out Skin Profiling Analysis using a magnifying lamp to determine if any treatment adaptations are required.
4. Cleanse for a second time applying **Ultra Soothing Cleanser** and use **Facial Cleansing Brush** x2 for an enhanced cleanse. Remove thoroughly.
5. Exfoliation – for sensitive skin: mix **Colloidal Oatmeal Masque** with **Colloidal Activator** into a workable paste and use to exfoliate the face, neck and décolleté in gentle circular motions.

For normal skin: mix **Ultra Soothing Cleanser** with **Exfoliating Scrub** and exfoliate the face, neck and décolleté in gentle circular motions, focusing on any areas of skin build up.

Remove thoroughly with a steam towel infused with **Chamomile Hydrosol**.

6. Apply **Soothing Aromatic Serum (No.1)** to face, neck and décolleté and proceed with Eve Taylor Drainage Massage. Blot off any residue but do not remove.
7. Prepare client with dampened cotton pads over the eyes and place gauze dampened with **Chamomile Hydrosol** over the face, neck and décolleté. Mix 2 level scoops (100 grams) of **Colloidal Oatmeal Masque** with approximately 50-60ml of warm water and add 6 pumps of

Colloidal Activator, mix until a creamy paste is achieved. With a spatula apply the masque over gauze in a thick, even application and leave under steam for 15 minutes (the steam will keep the masque moist without increasing the temperature of the client's skin). Alternatively, apply a layer of gauze over the masque and drape a warm steam towel to keep the masque moist.

8. Perform neck and shoulder massage using the warm luxurious wax of chosen **Aromawax Massage Candle**, ensuring you sooth tension in the shoulder area.

9. Roll gauze upwards from the neck to the forehead and lift away. Gently massage any creamy residue into the skin for maximum benefits or gently remove residue with a warm steam towel infused with **Chamomile Hydrosol**.

10. Smooth **Hydrating Serum** on face, neck and décolleté.

11. Spritz **Ultra Soothing Toner** directly to the skin.

12. Apply **Nourishing Eye Complex** to eye area.

13. Protect the skin with **Ultra Soothing Moisture Cream** mixed with **Moisturising Solar Shield SPF 25**.

14. Finish facial with application of **Seal & Protect Moisturising Lip Balm**.

15. Allow your client to rest for a few moments while you prepare a glass of water or herbal tea.
